SUMMARY

Software and Web Developer with hands-on experience in software development, web development, WordPress development, and presentation design. Skilled in Python, Java, JavaScript, React, HTML, and CSS, with experience designing and developing responsive, user-centric applications. Strong foundation in database design, networking, and collaborative problem-solving, with a proven track record of delivering reliable, client-focused digital solutions.

EDUCATION

Galgotias University

Bachelor of Technology in Computer Science & Engineering

2022 – 2026

St. Xavier's High School (CBSE)

Class XII

2021

Alok Vidyashram (CBSE)

Class X

2019

EXPERIENCE

Freelance Web Developer

July 2026 – Present

Centurian Web Solutions

Remote

- Design and develop custom client websites using WordPress, cPanel, HTML, CSS, and JavaScript, ensuring cross-browser compatibility.
- Build responsive, user-friendly web solutions tailored to client requirements, improving usability and engagement.
- Manage hosting environments and deployment pipelines to ensure smooth, reliable website launches on schedule.

Junior Presentation Designer Trainee

Jan 2026

EZ Lab Private Limited

Gurgaon, India

- Created and edited structured, professional PowerPoint presentations for client delivery, ensuring accuracy and brand consistency.
- Designed reusable templates with consistent formatting, alignment standards, and visual hierarchy to streamline content production.
- Developed charts, graphs, and Excel-integrated data visualizations to support data-driven storytelling.
- Applied industry best practices in slide structuring and visual design consistency across client decks.

Cyber Security Intern (Virtual)

May 2023 – Jul 2023

Palo Alto Networks

Remote

- Performed vulnerability assessments and conducted penetration testing exercises to identify and mitigate security risks.
- Gained hands-on experience in network security, threat detection, and risk mitigation methodologies.

PROJECTS

E-Commerce Website (YASA TRADERS) | HTML, CSS, JavaScript

- Developed a full-stack e-commerce web application with secure user authentication and session management.
- Implemented shopping cart functionality, payment processing flow, and order management system.
- Designed a fully responsive user interface compatible across multiple devices and screen resolutions.

Speech-to-Text Recognition Model | Python, Machine Learning

- Developed a speech recognition system using Python with an optimized audio processing pipeline.
- Achieved approximately 95% transcription accuracy through model tuning, feature engineering, and preprocessing improvements.

TECHNICAL SKILLS

Programming Languages: Python, Java, C++, JavaScript, HTML, CSS

Web Technologies: React, Vite, WordPress, cPanel, Responsive Web Design

Frameworks & Platforms: Apache Tomcat, Database Design, Networking, Android Studio, Canva

Tools: Git, GitHub, VS Code, MS Word, MS Excel, MS PowerPoint

Core Competencies: Software Development, Web Development, Client Collaboration, Presentation Design, Data Visualization, Project Delivery, Network Security

CERTIFICATIONS

Packet Tracer – Cisco Networking Academy

Apr – May 2024

Database Design – Oracle Academy

Dec 2023 – Jan 2024

Cybersecurity Fundamentals – IBM

Dec 2023
